

ORDINANCE NO. 06-0901

BE IT ORDAINED BY THE MAYOR AND COUNCIL MEMBERS OF LIBERTY, IN CITY COUNCIL ASSEMBLED:

(A) **Findings.** As an incident to the adoption of this Ordinance, the Town Council ("Town Council") of the Town of Liberty, South Carolina (the "Town") makes the following findings:

- (1) Secondhand smoke as defined herein includes both smoke exhaled and smoke from the end of a burning cigarette, cigar or pipe; and includes a complex mixture of nearly 5,000 chemical compounds, including 43 chemicals that are known human carcinogens; and
- (2) The health consequences of involuntary smoking have been reported by the U.S. Surgeon General to be a cause of disease, including lung cancer, in healthy non-smokers; and
- (3) The U.S. Surgeon General has concluded that a simple separation of smokers and non-smokers within the same airspace does not eliminate the exposure of non-smokers; and
- (4) Secondhand smoke has been classified by the Environmental Protection Agency (EPA) as a known cause of cancer in humans (Group A Carcinogen) like asbestos, arsenic, hexavalent chromium; and
- (5) The National Institutes of Health, Centers for disease Control and Prevention, National Toxicology Program, Report on Carcinogens and the International Agency for Research and Cancer have all reported that secondhand smoke is a human carcinogen; and
- (6) Numerous medical and scientific studies show substantial levels of exposure to secondhand smoke among the United States population, and over the past two decades, the health hazards resulting from exposure to secondhand smoke have been increasingly recognized; and
- (7) Secondhand smoke inhaled by a pregnant woman can increase the risk for low weight babies; and
- (8) Exposure to secondhand smoke by children leads to decreased lung function, asthma, pneumonia, ear infections, bronchitis and even sudden infant death syndrome; and
- (9) Exposure to secondhand smoke nearly doubles the risk of heart attack; and
- (10) 460,000 annual deaths in the United States directly attributed to tobacco use, of which 55,000 are involuntary tobacco users; and

(11) Workplaces have been shown to be locations of significant exposure to secondhand tobacco smoke by employees working in the Town of Sullivan's Island; and

(12) Both the Public Health Services National Toxicology Program and the World Health Organizations' International Agency for Research on Cancer identify secondhand smoke as a human Class A carcinogen and state that there is no safe level of exposure; and

(13) There are laws, ordinances and regulations in place that protect workers from other environmental hazards, including Class A carcinogens, asbestos, arsenic and benzene, but none which regulate exposure to secondhand smoke; and

(14) Prohibiting smoking in the workplace increases public awareness of the negative health effects of smoking, reduces the social acceptability of smoking and reduces harm to children and other nonsmokers; and

(15) The South Carolina General Assembly at Section 44-95-10 et seq. (the "Clean Indoor Air Act of 1990") imposed certain limitations on smoking. For example, it limited smoking in Government Buildings (the definition of which includes Town-owned buildings) except where the owner of such building shall designate smoking areas.

Town Council has now determined that additional regulation of smoking in areas beyond those addressed in the Clean Indoor Air Act of 1990 is appropriate in furtherance of its duty to protect the health of its citizens and employees in the workplace and therefore enacts this ordinance.

(B) Intent. Town Council finds that it is in the best interest of the people of this Town to protect nonsmokers from involuntary exposure to secondhand smoke in the workplace. Therefore, Town Council declares that the purpose of this act is to preserve and improve the health, comfort and environment of the people of this Town by limiting exposure to tobacco smoke in the workplace.
